<u>Pulpwood tons</u>	<u>9.7</u>	<u>70</u>	<u>\$280</u>
TRACT TOTAL			<u>\$4,495</u>

All volumes and values are estimates and not guaranteed

This tract has some more merchantable trees. KY Best Management Guidelines require that at least 50% of the shade must be retained along streams, therefore not all the trees may be harvested within approximately 30 feet of the stream. I think the volume listed above can be harvested and possibly a little more.
